WINSLOW AUTOMATION Achieves ISO 9001:2008 Certification

MILPITAS, Calif. – Oct. 29, 2009 – Winslow Automation, Inc. announced achievement of ISO 9001:2008 certification for its quality management system just one year after achieving its AS9100 and ISO 9001:2000 certification. Winslow Automation, Inc. is a leading provider of consumables and equipment for customers who build, modify, or rework microelectronic components. Additionally, Winslow Automation is a leading provider of BGA reballing preforms under the trademark of SolderQuik®.

About Winslow Automation, Inc.

Winslow Automation, Inc is a privately held California corporation founded in 1986.

In 1990, Winslow Automation founded its service business unit, SIX SIGMA, which provides services for the alteration of microelectronic components for use in high-reliability, military, and aerospace applications. Winslow Automation and SIX SIGMA are co-located in a multi-million dollar custom-designed facility located in the heart of Silicon Valley.
